

Interview Questionnaire

Depending on the type of performance you select, you and possibly your guests may be interviewed by the Chef. For instance, if you have selected The Ultimate Performance, then you have commissioned a unique work of art (your menu-script), where the food and wine become the medium for artistic expression. In order to create the menu, the Chef will require an interview with at minimum, the host(s) and possibly his/her guests, depending on the wishes of the host. There is not a series of questions that will be followed or any absolute rules to follow in this interview process. Please review the sections below to get an idea of the direction of the interview.
